

## BIG DEMAND FOR ROSEDALE SITES

**Jonah Wagers Purchases First Lot When Sale of Attractive Tract Starts Thursday**

Jonah Wagers bought the first of the attractive Rosedale Addition lot to the city of Richmond, which was opened as a residence sub-division by the Wakefield-Davis Realty Company, here Thursday. The lot Mr. Wagers secured is at the corner of West Main and new streets. Mr. Wagers paid \$680 each for three lots each 25x150 feet, giving him ample room upon which to erect a handsome home, which is understood to be his intention at an early date.

A great crowd was present when the sale of lots began promptly at 9:30 o'clock. Following band concert down town, a procession of automobiles filed out to the sub-division, and there seemed to be a thousand or more people on the grounds when Col. J. T. Cowherd made the opening announcement and started the sale. Bidding was spirited right from the start, the principal competition for the first lot being between Mr. Wagers and Mr. J. S. Sewell. The latter immediately bought the two lots adjoining Mr. Wagers on the west paid for which he paid \$570 each.

Selling was done rapidly and no time was lost in preliminaries. The big crowd followed the auctioneer's carriage from one section of the big tract to the other. The management had arranged the lots in most attractive shape, and buyers seemed eager and anxious to obtain them.

The ladies of the Pottier A. Clay Infirmary board served noonday lunch in cafeteria style, and gave everyone more than his or her money's worth for the best spring chicken and old ham sandwiches and other delicacies. The weather was warm with occasional clouds obscuring the sun, but little prospect of rain and the big crowd remained right to the very end.

Much interest was occasioned in the sale of the splendid home which is known as the old Leitch and Caperton residence. It was offered immediately after lunch, and interest was keen from the outset. The lot reserved for the magnificent old home measures 300x400 feet, and contains servants' house, garage, etc. The place was finally knocked off to Mr. W. M. Baker, of the Million section, of this county, upon his bid of \$3,100. It is considered that he secured a great bargain in this, for the house, at present prices could not be built for \$20,000, expert contractors say.

In addition to the lots mentioned above, the following is a complete list of the lots sold up to the adjournment for lunch:

Garnett Million two lots at \$464 each.  
Mrs. Maggie Adams, two lots at \$550 each.  
J. S. Boggs four at \$855 each.  
R. M. Rowland, three at \$610 each.  
James Cullen, two at \$380 each.  
Garnett Million two at \$235 each.

## BERLIN BUTCHERS UNRULY

Berlin, June 3.—The illegal sale of meat and bread without cards of more than one portion of meat for one meal has grown so prevalent in Berlin that the state commissary for peoples' nourishment has issued a sharp reminder drawing attention to the fact that war-time regulations are still effective and that further violations will be followed by closing kitchens, fines up to \$25,000 or imprisonment up to five years with loss of citizenship.

The order specifies that most of the war-time regulations are as necessary today as before.

## COL. BRUTUS CLAY TO BUILD HOME

Another handsome home will be erected on West Main within a short time, as Col. Brutus Clay this week purchased from Mrs. R. O. Lackey her lot at the east corner of West Main and Aspen avenue. This lot adjoins the old McCreary home, recently purchased by Mr. T. E. Baldwin. Col. Clay is reported to have paid around \$3,200 for the lot, which is on a most attractive location. Plans for a beautiful residence are now being drawn by Webber, the famous Newport architect, it is understood, and as soon as a contract can be let, Col. Clay will have a most attractive home on his lot.

## HUNS BARRED FROM LEAGUE FOR PRESENT

(By Associated Press)  
Austria's attitude toward the allied peace terms have not officially been made known to the allies. Vienna advises, however, indicate official dissatisfaction and the chorus of newspaper disapprobation that apparently the people were lethargic.

Completion of the treaty, several clauses of which are missing, is not likely this week.

Meanwhile modifications of the terms of peace with Germany seem approaching a definite form. Alterations, it is said, are planned not to make the terms lighter for Germany but to render their execution easier. Apparently there is a disposition on the part of Lloyd-George and Clemenceau to fix the German indemnity at 25 billion dollars, with the first installment of five billion to be paid within four years, instead of two years, as now stipulated.

The terms relative to Silesia and the Sarre region also may be altered.

## EUROPE A KNIFE EDGE SAYS FRANK VANDERLIP

(By Associated Press)  
Washington, June 5.—"Europe has received such a shock as cannot be measured by those who have not seen it at close range," Frank A. Vanderlip, former president of the National Bank of New York City, told the Pan-American conference here today. "Do not think I am predicting a conflagration in Europe," he said. "But I believe that continent is now balanced upon a knife edge and that the future alone can tell whether there will be a conflagration."

## Promises To Make It Aid

(By Associated Press)

## Lumber and Posts To Be Sold At Auction

All the loose lumber and posts on Rosedale Park will be sold immediately after the Big Lot Sale Thursday. There are lots of good material in this and it will be sold at public sale.

## MULE'S KICK CAUSES LOSS OF LEFT LEG

Luther Isbell, a prominent young farmer of the Baldwin section, had his left leg amputated above the knee at the Gibson hospital Wednesday night as a result of a serious fracture of the limb sustained when he was kicked by a mule at his home about noon. Mr. Isbell had just taken out the team which he had been working all morning, to feed them, when one of the animals began kicking at him in the stall after he had given it some corn. A terrific blow struck him above the knee cap of his left limb, causing him to fall to the ground, but he rolled away from the mule and out of further danger.

One of his little children found him soon afterward, lying on his face, half unconscious, from the fearful pain. The injured man was brought to town as quickly as possible. Every effort was made to save the injured leg, but it was found that the bone had been so fearfully shattered by the mule's iron-clad hoof that nothing could be done for it, and as a last resort it was found necessary to amputate the limb just above the knee. Mr. Isbell stood the operation well, it is said this morning, and unless complications develop, will recover nicely, it is believed.

Mr. Isbell is 39 years of age and has a wife and two small children. He is a brother of Ambly Isbell, of the Newby section, and of Mrs. Wilbert Howard, of Cottonburg. He has many warm friends who deeply sympathize with him in his trouble.

## Nicholasville Acquitted

Judge Shackelford is holding circuit court in Jessamine this week. The city of Nicholasville was acquitted of the charge of allowing automobiles to blockade a portion of South Main street, near the Peerless garage. A number of witnesses testified for both commonwealth and city. The indictment was returned by the grand jury at the March term of court.

## Salvation Army Sunday

Sunday, June 16th, will be Salvation Army Sunday in the churches of the Blue Grass section and every pastor in every church of the county is being supplied with interesting material concerning the war work of the Salvation Army in France. No collections will be made in the churches but every pastor who has had brought home to him realization of just what the cherry faces of the girls in the Blue Bonnets who carried steaming pitchers of coffee and other comforts to thousands of soldiers standing knee deep in the mud of the trenches of France, will gladly bring the matter of the Salvation Army's Home Service work before his people.

## Banks For Discharged Soldiers

(By Associated Press)  
Louisville, Ky., June 4.—A plan to establish agencies at each demobilization center to arrange for banking the funds of discharged soldiers is being worked out by the American Bankers' Association, the Red Cross and the War Department, according to an announcement here. Each soldier ordinarily is discharged with at least \$900 in cash. The co-ordinating agencies see in the aggregate the basis for a new thrift campaign. The Red Cross will provide quarters and facilities, and the banks will supply tellers and clerks and open channels to transmit free of charge the soldier's money to a bank in his home town. The War Department will sponsor the plan, it was stated. Preliminary steps in this direction have been taken for the benefit of men to be discharged at Camp Zachary Taylor.

## MAY OPEN OIL EXCHANGE HERE

**Also Talk of Organizing a Good Dividend Paying Royalty Company—Oil Field News.**

A movement is on foot among Richmond men interested in the oil business to organize a royalty company here. Suggestions have been made that a capitalization of \$50,000 or \$100,000 can easily be secured. A number of very valuable and lucrative royalties, principally on leases in the Big Sinking District of Lee county, are already owned here and the number of men interested in oil properties of various sorts seems to be constantly growing. Many shrewd oil men prefer royalties to any other sort of oil investments, as there is no expense connected whatever with the operation of the wells or any outlay. There is also talk of establishing an oil exchange here, and plans looking to this end may soon take shape.

Richmond has been rather backward in pushing oil investments as compared with a number of other towns of its size in this section of the state. There are scores of companies at Winchester, half a dozen or so at Paris, and now a number of royalty companies are being organized in blue grass cities and are said to be the best dividend producers of any. Stock in most of the royalty companies sells at considerably above par on all the exchanges.

The Lexington Royalties Company, with its place of business in Lexington, filed articles of incorporation late Tuesday. The purpose of the corporation is to operate and develop oil, gas and mineral lands and to purchase, sell, and dispose of royalties for other interests of these lands. Capital stock is fixed at \$50,000, divided into 1,000 shares, of the par value of \$50 each. Incorporators are: E. G. B. Mann, W. L. Shearer, R. Armspiger, R. W. Rounsavall, Matt S. Walton, J. R. Bush, all of Lexington.

The Associated Royalties Company, capitalized at \$500,000, has been organized at Paris. This company owns a number of valuable royalties in Allen county, which it proposes to develop at once. The following have been elected officers of the new corporation: President, E. E. Hinton, Paris; first vice president, Milburn P. Kelly, Louisville; second vice president, Guy D. French, of Winchester; secretary, O. T. Hinton, Paris; treasurer, Dr. J. M. Williams, Paris.

Frankfort men are the promoters of the Allen-McLean Oil Co., articles of incorporation of which were filed. The new company has a capital stock of \$100,000, divided into 100,000 shares of the par value of \$1 each. The incorporators are T. B. McGregor, J. J. King, W. Pruett Graham, Dr. C. A. Fish, George C. Speer, each of whom owns fifty shares of stock.

Articles of incorporation of the Lawson Oil and Gas Company were filed in Lexington Tuesday. The nature of the business will be dealing in oil and gas royalties and leases. Capital stock is \$150,000 divided into 150,000 shares of the par value of \$1 each. The following are the incorporators: Emmett Redmond and T. C. Bradley, both of Lexington, and C. T. Ashley, of Nicholasville.

## News From Oil Fields

The Owsley County Oil & Gas Company has brought in its No. 3 near Endee postoffice, in Owsley county. This well is reported to have come in natural and to be flowing. It is believed that this well practically opens a new pool in this field.

The Southwestern Petroleum Company is reported to have completed and shut in No. 2 on the Campbell tract in Lee county, which is estimated at 75 barrels.

The New Oil Company, of its No. 35 on the McKay tract, in Estill county, which is said to be a good stripper, estimated at 10 barrels.

day. The company is rigging at No. 16 on the same tract.

In Louisville, the organization of the Big Sinking Petroleum Co. was effected and incorporation papers have been applied for in Delaware. This company is capitalized at \$1,000,000, and has just purchased at a good figure the 75 acre Pendergrass tract on Big Sinking creek in Lee county from Young and Stevenson and W. P. Williams Oil Corporation. The tract in question has 17 wells in and 6 drilling and a production estimated at 1,000 barrels a day.

The Petroleum Exploration Co. has purchased the J. T. Day tract of 200 acres on Little Frozen creek in Breathitt county, and will shortly begin the development of this property.

President George McLeod, of the Capital Oil Company, which is operating the Beatty heirs lease in Lee county, stated Tuesday that the big well recently brought in on this lease by his company is still maintaining its production around 400 barrels a day and is one of the best wells in the eastern field. He states that the company is drilling two more wells on the same lease, which are expected in about June 15th.

The Danville Oil & Gas Company brought in No. 2, on the G. H. Floyd lease in Lincoln county. It is a good one. Oil was struck at a depth of 150 feet, where the sand was 22 feet deep. They only drilled 14 feet in the land. This well is only a short distance southwest of well No. 1. The drill has been moved to a point northeast of No. 1 for well No. 3, which many believe will be a gusher.

The Island City Oil Company has decided to begin drilling on its large acreage in Owsley county. The company has 2,000 acres leased and drills will be put to work within the next sixty days. The company's leases are well selected, 800 on Island Creek and on the Right Fork of Island Creek. Acreage adjoining is being drilled. About 100 acres are on Island Creek, and 500 near the property of the Pyramid Oil Co. and the Owsley Oil and Gas Co. This is in the neighborhood of Traveler's Rest and Endee. It is estimated that more than forty test wells will be drilled in Owsley county this year and it is the belief of experienced oil men and geologists that the county will prove an oil producer.

Recently there have been slight decreases in the amount of oil run out of Kentucky through the Cumberland Pipe Line Company's lines. This was explained yesterday by news that the company's lines in the past several weeks have been hampered by several accidents to the Eureka Pipe Line Company's lines in West Virginia. The Eureka Company enlarged its lines to meet the increased Kentucky production and at the same time the Cumberland system was enlarged. Shortly after completing the new lines the Eureka's dam was badly injured by high water in West Virginia, and later condensers were put out of order. Now, however, the trouble is over and runs through the Cumberland lines will not be held up.

Business men from various points in Kentucky are interested in the Gem Oil Company, just organized in Winchester and incorporated in Delaware for \$400,000. J. A. Judy, of Mt. Sterling, is president, and C. A. Cravens, of Louisville first vice president. Price J. Johnson, of Lexington, is second vice president, George A. Mitch, secretary, and James A. McCort, secretary.

## CUTTING KANSAS' BIG WHEAT CROP

(By Associated Press)  
Topeka, Kan., June 5.—Harvesting of the big Kansas wheat crop estimated at 218,500,000 bushels, is expected to start today and tomorrow in southeastern counties and reach the great wheat belt of the southcentral counties by June 20. J. C. Mohler, secretary of the state board of agriculture, estimated that the crop will be far greater than that ever produced by any other state in the union.

Federal department of agriculture estimates indicate that Kansas will harvest nearly one-fourth of the total winter wheat crop of the nation. Nearly 11,000,000 acres were planted and the condition last given by the state board of agriculture was 98 per cent—the best condition and the largest acreage ever recorded. Based on the government's fixed price, Kansas wheat growers bid fair to realize nearly a half billion dollars.

Statisticians say the average man consumes a barrel of flour a year, and that the Kansas wheat crop will make enough flour to feed half the United States for a year. Millers estimate it takes four and a half bushels of wheat to make a barrel of flour (196 pounds).

Converted into bread on the basis of sixty loaves to each bushel of wheat, the estimated Kansas crop would make 13,115,000 loaves. At ten cents a loaf, the consumer would pay from two and a half to three times for the wheat in the loaf that the farmer receives for the original grain, statisticians point out.

The estimated Kansas wheat crop, on the government's basis of \$2.26 a bushel, will yield \$315.34 per capita for the entire population of the state. One farmer in Reno county is said to have out 40,000 acres that will yield around 19 bushels to the acre—a cash value of more than \$1,500,000.

Five government central labor with the state labor department to distribute the harvest labor. It is estimated that it will take 220,000 hands to harvest and thresh the crop, 120,000 of whom must be obtained outside the present farm forces of the state.

Harvest wages are from 30 to 40 per cent over those of a year ago. Wheat growers conferences have agreed upon a scale of 50 cents an hour for laborers, 60 cents for stackers and 70 cents for men with teams, including board and lodging.

## Here Boosting Shanks

Former Senator R. L. Hubble, of Stanford, better known to a lot of friends as "Took," is here from Lincoln today to see the big lot sale and boost for his county man, Will H. Shanks for the democratic nomination for Lieutenant Governor. Senator Hubble says that Shanks' candidacy has met a very gratifying response, and he predicts that he will be a sure winner in the August primary.

## POWDER CAR KILLS MANY IN MINE

**Over 70 Killed When Explosion Occurs in Coal Mine At Wilkesbarre.**

(By Associated Press)  
Wilkesbarre, Pa., June 5.—A large number of mine workers were killed and many injured when a car of powder, fired by a spark from a trolley wire exploded in the Delaware and Hudson Company mine near here today. The magnitude of the disaster was realized when 60 bodies were taken out.

At noon, according to the official list, the death had been increased to 78, and the list of injured reduced to 31, with probabilities it would reach 40.

Within a short time other bodies were brought out and at 10:30 o'clock company officials announced 71 men dead and 35 in hospitals, most of whom are apparently fatally injured. The disaster, with one exception, is the greatest this vicinity ever experienced. It occurred while more than a hundred miners were riding through the mine tunnel to work on mine cars drawn by motors. The rear car carried 12 kegs of blasting powder. The trolley wire snapped when the train progressed 200 feet from the entrance and sputtering electricity, 'touched off' the powder. Instantly there was a flash and roar and flames shot down the tunnel from the rear end of the train enveloping a hundred men and boys. Fire fighters working faithfully subdued the flames and the gruesome work of taking out dead and injured began. At the mouth of tunnel families of men congregated and as bodies appeared, pitiful scenes were enacted.

ABLED YANKS

Secretary J. M. Walker, of the Civil Service Board, has just been notified that an executive order recently issued by the President and received by cable amends the Federal civil-service rules so as to permit U. S. Civil Service Commission to waive the physical requirements under certain conditions in favor of men who were injured in the military or naval service.

The civil service regulations specify certain physical defects which disbar from all examinations, and other defects which will defer from certain examinations. These regulations are based upon the requirements of the service as established by the several department heads.

Upon the recommendation of the Commission after consultation with the Federal Board for Vocational Education and the U. S. Employees Compensation Commission, the President issued an Executive Order, as follows:

"Provided that the Commission may in its discretion, except from the physical requirements established for any position a disabled and honorably discharged soldier, sailor, or marine upon the recommendation of the Federal Board for Vocational Education that he has been specially trained for and has passed a practical test demonstrating his physical ability to perform the duties of the class of positions in which employment is sought."

In submitting its recommendation to the President, the Civil Service Commission said: "Where it is apparent to this Commission that his (the disabled soldier's, sailor's or marine's) physical condition is such that he would not ordinarily be accepted, the case will be referred to the Federal Board for Vocational Education."

The board will then decide whether it is practicable to educate him for the position sought. If considered practicable, the rehabilitation and education will be given and when completed certification of that fact will be made to this Commission. Where the board does not consider it desirable to attempt the education for the position sought, other positions will be suggested.

"The board suggested to him, for each position, a physical condition which he will not be admitted to the one."

### SOCIAL AND PERSONAL

#### Beautiful Reception

Mr. and Mrs. E. V. Elder entertained very informally Tuesday evening, with a reception, in honor of Mr. and Mrs. James Leeds, who had just returned from their wedding trip. The rooms were profusely decorated with Spring flowers, the color scheme pink and white being artistically carried out in the dining room and parlors. The bride's cake was used to decorate the center of the table and when cut afforded a great deal of merriment. Miss Ann Enright won the thimble, Miss Lillian Dozier got the ring, Miss Mayme Campbell, the needle and Miss Eugenia Elder, presided at the trapeze bowl and refreshing ices and individual cakes were served during the hours. Fully seventy-five guests enjoyed the lovely hospitality.

#### Entertained Faculty

One of the most delightful social events of the season was the beautiful party Tuesday evening, to which Miss Carrie Allman was hostess given in honor of Prof. D. W. Bridges and Mrs. Bridges, who will leave at the end of the school term to make their home at Mayfield. The guests of the occasion, were the faculty members of Caldwell High School, and included Prof. and Mrs. Bridges, Miss Holtzelaw, Miss Curraleen Smith, Miss Geneva McCarty, Miss Kathryn Park, Miss Curtis McKinney, Miss Lee White, Miss Mary Doty, Miss Elizabeth Blanton, Miss Nettie Oldham, Miss Anna Mae Walker, Miss Mabel Kunkle and Miss Odessa Price. During the evening the faculty presented Prof. Bridges with a very beautiful set of silver brushes, as a token of their love and esteem, and assurance that their best wishes go with him and his to their new home.

Mrs. G. G. Perry and son, Igo Perry returned from a visit to friends in Stanford.

Mrs. H. H. Snead, of Gulfport Mississippi, has arrived for a month's stay, with her daughter, Mrs. L. B. Weisenburgh at West Over Terrace. Miss Florence Burman who has been attending school at Washington City, is expected home today, to spend her vacation.

## Corns, Calluses Quit Quick!

### Two Drops of "Geta-It" Will Do It.

Ever hand-carve your toe with a knife trying to get rid of a corn? Ever use scissors and cut off part of the corn too close to the quick?

### "Geta-It" Puts Your Feet in Clover

#### —It Ends Corns Quickly.

Ever pack up your toe with "contraptions" and plasters as though you were packing a glass vase for parcel post? Ever use greasy ointments that rub off on your stockings? Ever use sticky tape that gets jerked off when you pull your stocking off? Kind of foolish, when 2 or 3 drops of "Geta-It" on any corn or callus gives it a quick, painless, peaceful, dead sure funeral! Why putter and putter? "Geta-It" stops corn pains, it lets you work, smile and dance, even with corns. It's the common-sense way, the only simple, easy way—peels corns off like a banana peel. Used by millions. It never fails.

"Geta-It" the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Sold by E. Lawrence & Co., Chicago, Ill.

Sold in Richmond and recommended as the world's best corn remedy by Stockton and Son.

## Health About Gone

Many thousands of women, suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spivey of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. ———— had us get Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

## A Hot Spot Chalmers Holds Every Drop of Gas to Account

It takes gas to move weight. And in a car like the Hot Spot Chalmers, which is 300 pounds above the "light-weight" class and 300 pounds under the "heavy-weight" class, gas has more than passing attention.

The trick is to move this weight at the minimum effort. Therefore, the Hot Spot and Ram's-horn play a great part in the Chalmers.

Hot Spot holds every drop of gas to account.

It "cracks up" into a "dry vapor powder" the raw gas just as the gas enters the Ram's-horn and the latter dispatches the "pulverized" fuel to the cylinders with lightning like rapidity.

The result is that when the spark plugs "touch it off" every drop (finer by far than the naked eye can detect) turns itself into power de luxe.

There's little waste — well nigh none. And remember that this Hot Spot engine of the Chalmers is the most modern automobile engine of the day.

It has made Chalmers one of the few great cars of the world.
